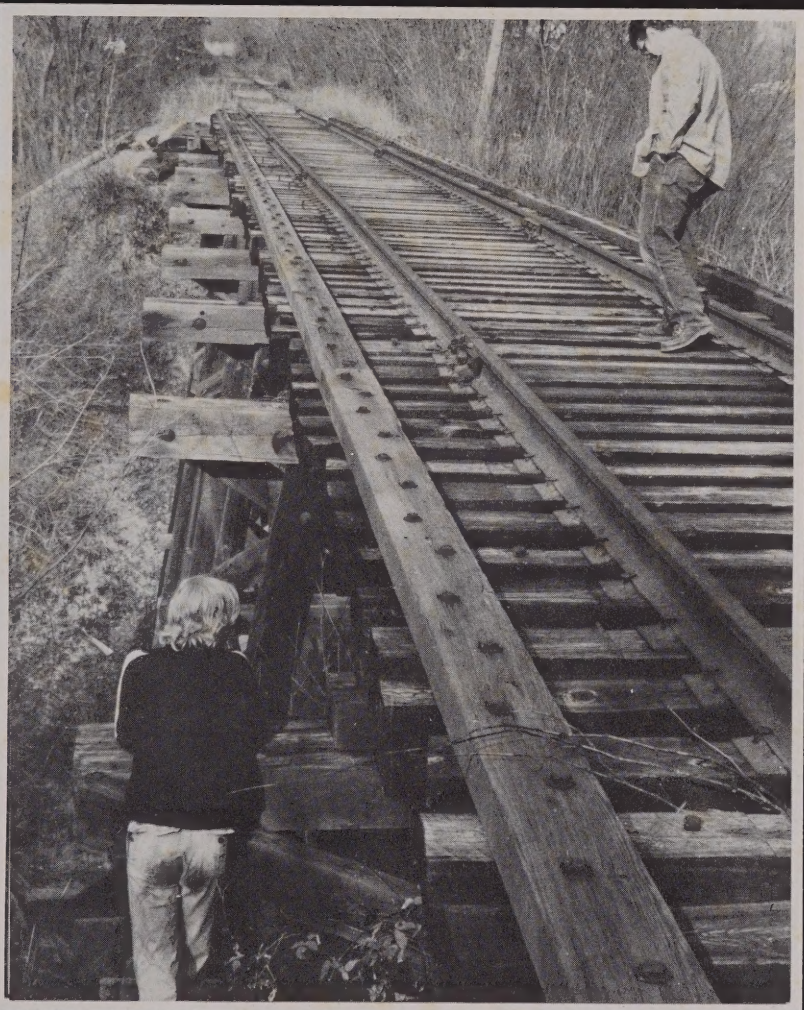
BLACKBURN COLLEGE



CARLINVILLE, ILLINOIS

Dedication

We would like to dedicate the 1979-1980 edition of Beaver Tales to Mary Cosner. She has given many years of service to Blackburn College and also, endless help to the Beaver Tales staves. Until last year, Cos had been the advisot to the yearbook staves. We would like to take this opportunity to let her know how much we appreciate and thank her for her help and advice throughout the years.

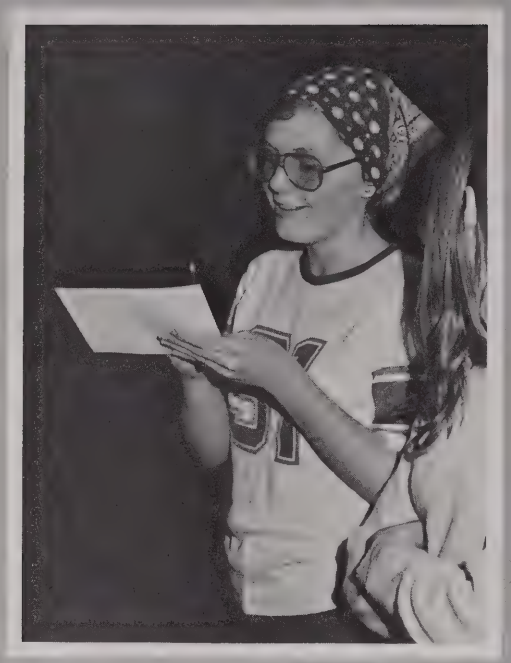
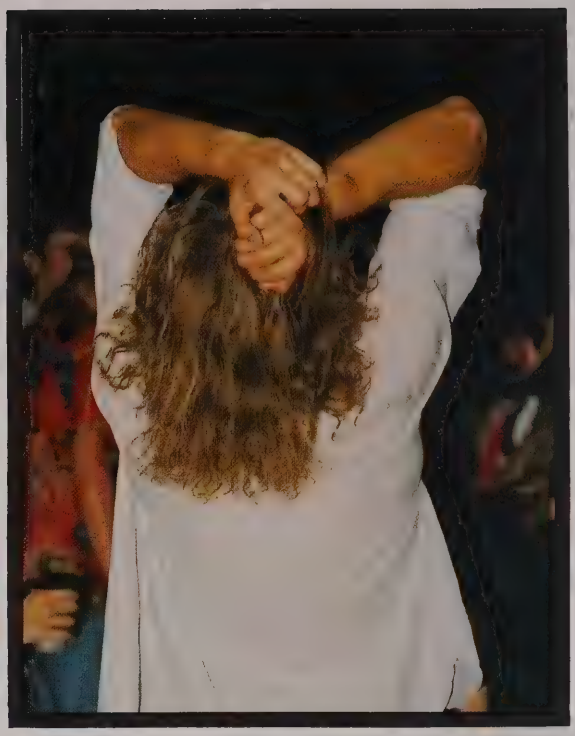
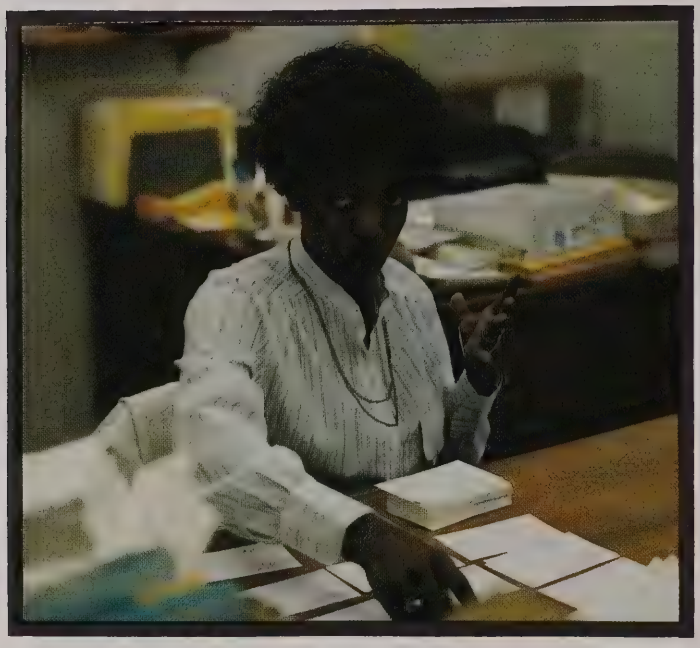
TO THE CLASS OF 1980

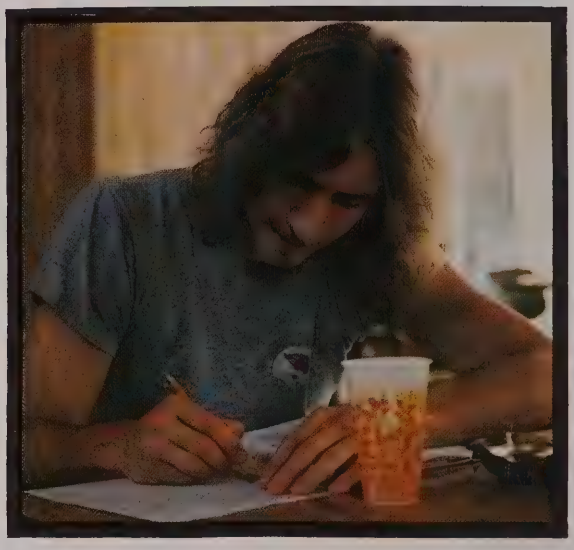


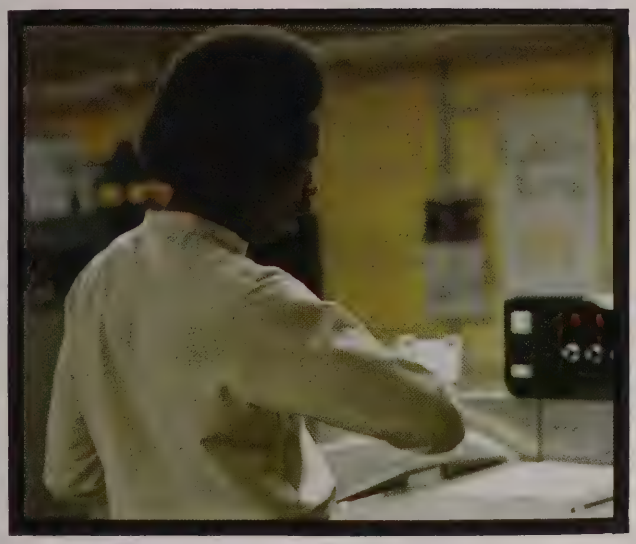
Dear Senior,

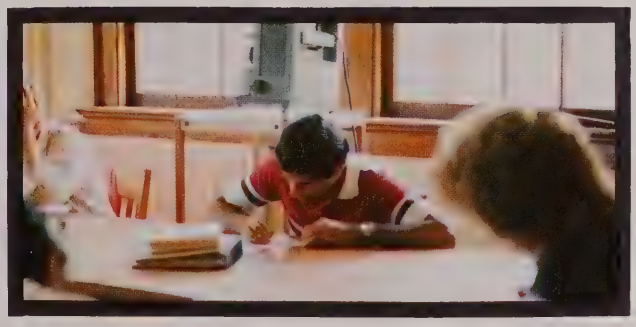
It's really hard to summerize all that's happened to us in the last four years. There's so much to remember and even a little we'd rather forget. But it's our turn now. Our turn to think back to our freshman year and go through each year and laugh at our craziness, cry about our misfortunes, but mostly, share these thoughts and times with those who shared them with us. All our memories flood our minds trying to be remembered, lest they be forgotten. But we hang onto these memories because they were us for four years.

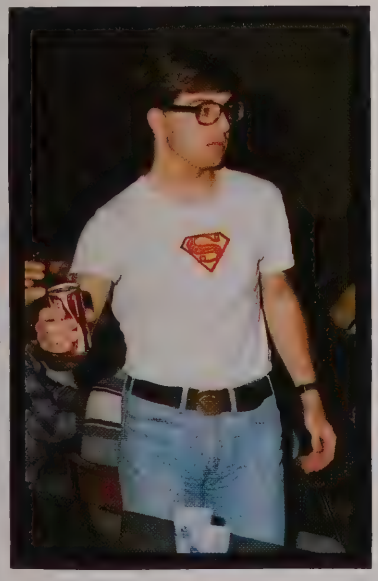






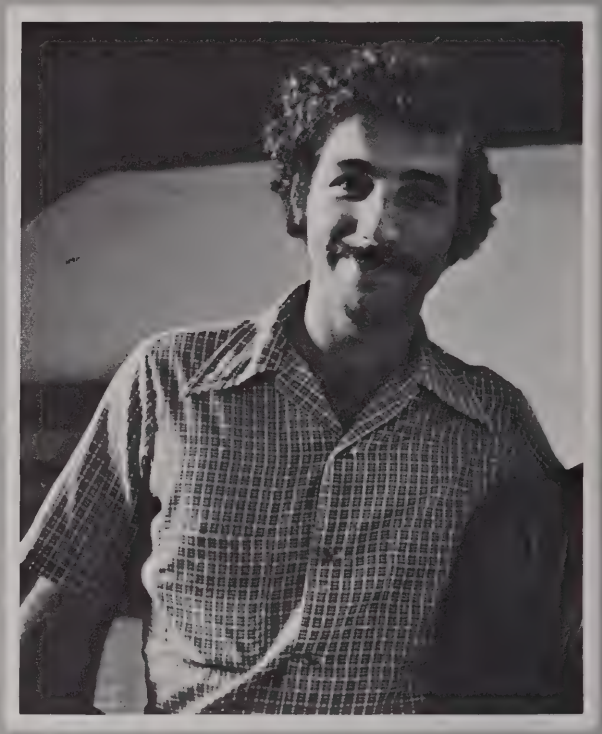


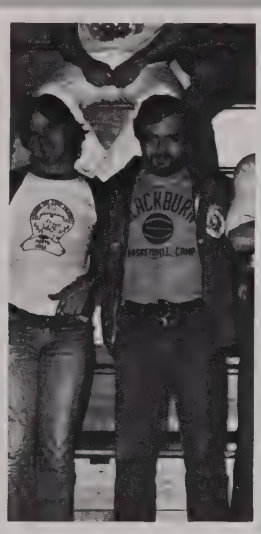




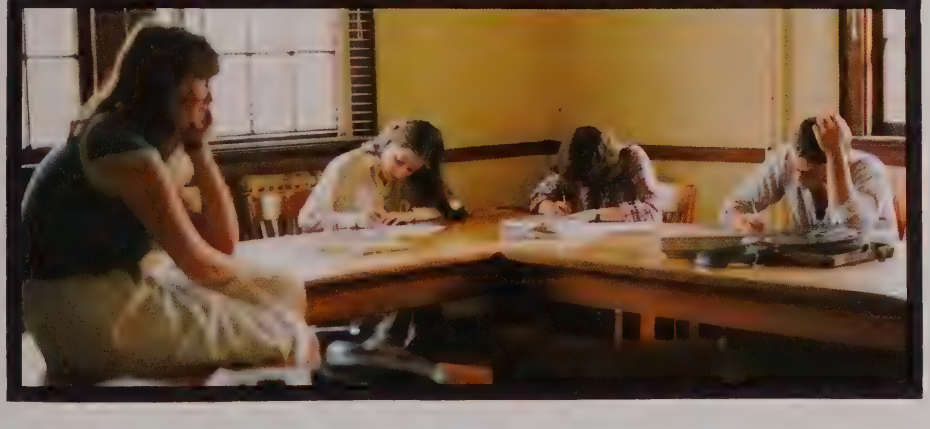
Heathkit 1500

The years we've spent here have been long and tough. Sometimes it seems like there was just no possible way of making it through. We had tests and papers and books thrown at us. And it seemed like every professor thought his was the only course you were enrolled in. We felt like we were expected to do seven things in the time it took to do three. But it always got done and we always felt better as we turned in the last paper or answered the last question on a test.



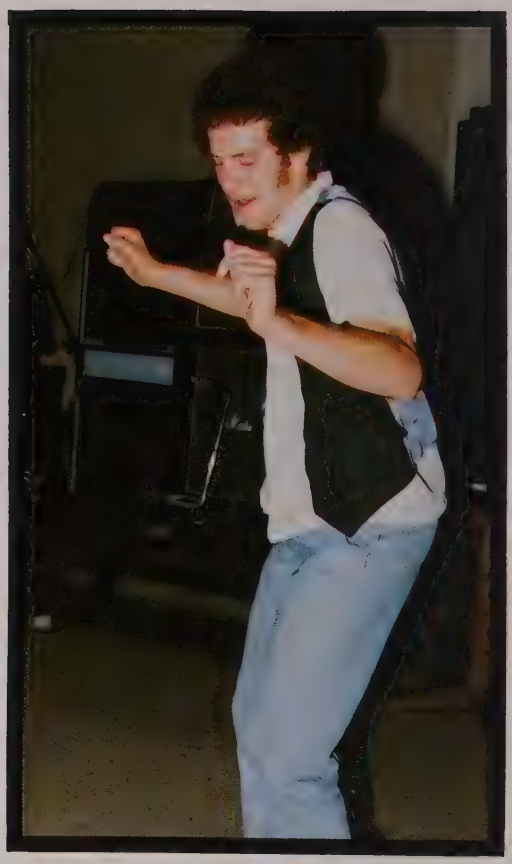


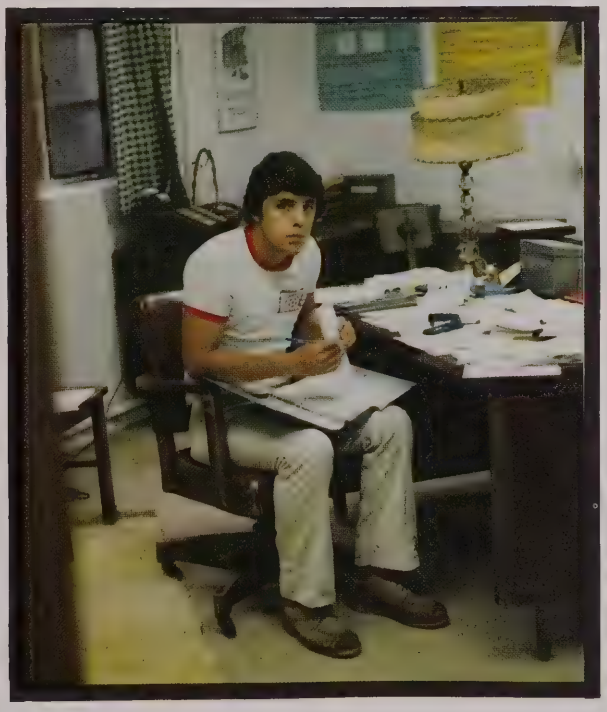
The going did get tough. So tough sometimes that we have probably all had our moment of "Please get me out of here!" We can also remember times we wanted to quit and give up. Some did. We adapted and accepted the challenge though, and everything got done on time — or close to it. It's funny. No matter how tough and impossible it got, we survived each time, knowing the next time would be our last. But however it all turned out, we learned and that's what's important.



When we were freshman, do you remember looking ahead and feeling it would never end? It seemed like you would be spending a large part of your life here. Well, we did spend a large part of our life here, but it was all jam-packed into four short years along with books and friends, teachers and social lives. Quite a bit has happened to us. We have grown and matured, though sometimes you can't really feel it. But look back and you'll see it.

Now we're at the end of our four years. Looking back it went so fast — too fast. You can remember things you wish you'd done different and things you wouldn't change at all. If you had the chance, would you go back and *really* study? Sometimes we were just too busy to study. We had enough things to keep us busy for a 28 hour day and just hoped we'd be able to somehow squeeze a little bit of free time out of it. But we were so used to being busy, when we did get that free moment we didn't know what to do with ourselves!





Now we are venturing into the real world. Hopefully we can all answer "Where do I go from here?" It's a frightening thought. We are now the big people we always wanted to be when we were small. Now we wish we could be small again, without all the responsibilities that go with being big. But we'll make it. When we leave we'll carry things with us that are very much a part of, and will remind us of, Blackburn. With us we take ideals and feelings, friends, emotions, perhaps even a husband or wife. In any case, no one leaves Blackburn empty-handed.

Let's make a promise to each other. Let's promise to keep in touch and really do it this time. We have so much to offer each other, let's not waste it.

Have a happy forever.

Sincerely,

Valli and Mary Kathy
